

TRI-K Proteins Portfolio

PRODUCT SOLUTIONS FOR HAIR & SKIN CARE

AT A GLANCE

At TRI-K, we offer a broad range of proteins & derivatives from both vegetable & non-vegetable sources. We provide the protein staples that are the pillars of the market and protein innovations with ahead of the curve technology, through our comprehensive portfolio.

Proteins are essential building blocks for skin and hair, offering multi-functional and unique benefits. The proprietary process used to create hydrolyzates, amino acids, quaternaries, and condensates provide a consistent competitive advantage.

TRI-K has implemented a major initiative called **NPNF®** (non-paraben, non-formaldehyde), removing all parabens and formaldehyde donors from our liquid cosmetic proteins. This robust **NPNF®** platform was created to help meet the needs of our customers in a safe and effective manner.

NPNF® - Preserved with confidence.

Please find our broad range of skin & hair care proteins, organized by benefits, in the following pages and our **NPNF®** proteins listed below.
